### POET'S MISSION

Our mission is to be good stewards of the Earth by converting renewable resources to energy and other valuable goods as effectively as humanly possible.

### POET'S VISION

Our vision is to live in a world with natural balance where we no longer take from the Earth, but rather use its enormous ability to regenerate. Where we are no longer dependent on fossil fuels, but rather rely on the power of nature and the genius of the human spirit. Where farms are the creators, and innovators are the heroes. Where we use the resources given to us in ways we believe God intended.

## From the Merchandisers' Desks...

As crop year 2023 comes to a close and we begin the 2024 crop harvest, we would like to wish all of you a safe harvest season.

Our discount schedule will remain the same as last year, and we will be offering a Price Later program (please call for details).

In the coming months we will be working towards a new texting service. We will have 2 text groups. One for grain bids and one for notifications. Please give us a call if you would like to be added to either of these lists.

We offer specialty contracts to help you pick up a premium on the current prices for nearby and future months. These contracts are available for both corn and soybeans.

We are available for farm visits. If you would like us to come out please to call and we will gladly assist you with any questions on the market or any other issues we can help with.

Your grain team at POET Lake Crystal wants to thank you for your continued support.

*Scott Dusty Karen Randy*

# Contracting Options

## Accumulator Contract

Good contract if you think the market is headed sideways

Prices an equal amount each day above the current market; Subject to potential double obligation, subject to Knock-out and not all bushels being priced, dependent upon choosing Remainder option; (\$.05/bu. service fee on corn; \$.08/bu. service fee on soybeans)

## Basis Contract

Move Now, Price Basis Now, Fix Futures Later,  
OR  
Move Later, Price Basis Now, Fix Futures Later

Lock in a favorable basis and leave the futures price open— allowing you to take advantage of a potential rise in the futures. *A cash advance on your contract is also available.*

## Forward Flat Price

Move Later, Price Basis & Futures Now

Locking in a price and delivery time now not only secures a satisfactory price for your grain but also eliminates both price and basis risk.

## Hedge to Arrive Contract

Move Later, Fix Futures Now  
Price Basis Prior to Delivery

The flexibility of delivery allows you to take advantage of basis appreciation. And, by fixing the futures portion of the contract, you eliminate future risk. *There is no money up front required from you. (\$.01/bu. option mo., 3 cent minimum service fee).*

## Flex Hedge Contract

Same as Hedge to Arrive with additional flexibility to delivery to alternate locations. *(\$.03/ bu. additional fee if delivery is flexed).*

## Delayed Price Contract

Move Now, Price Basis Later, Fix Futures Later

Transferring the title of the grain to the ethanol plant on delivery eliminates storage quality risks as well as the need for on-farm storage. Without setting the basis price or fixing futures at delivery, you are able to take advantage of possible Basis and Board of Trade futures improvements. This contract is not always available or may be available for a fee.

## Minimum Price Contract

Move Now or Later at Minimum Flat Price,  
Unlimited Futures Potential

By locking in a minimum delivery price, you can take advantage of the potential in Board of Trade futures advances— without risking your guaranteed minimum price. Cash flow may be generated by receiving your minimum price when the grain is delivered. *And, there is no money up front required by you.*

## Premium Plus

Move Now or Later, Price Now at Premium,  
Future Offer at Agreed Strike Price

Get a premium on a sale made today in exchange for a firm offer with a set strike price and strike date. Get that little extra out of the market today while starting your marketing plan with an offer. Subject to potential double obligation. Subject to potential double obligation.

## Min / Max Contract

Move Now or Later, Price Now at Lower Cost  
Min Price, Obtain the Value of the Difference  
Between the 2 Options

By locking in a minimum delivery price, you can take advantage of the potential in Board of Trade futures advances up to the max.— without risking your guaranteed minimum price

## Average Price Contract

Move Now or Later, Price Basis Prior to Delivery,  
Futures Fixed with Averaging a Time Period

Taking some of the frustration out of marketing your grain, the Average Price Contract will average the close during a set time period establishing the futures portion of your contract. *(\$.05/ bu. service fee).*

## Flat Price Contract

Lock in total price at one time

Set the futures, basis, and delivery period on a certain amount of bushels. Example: Dec corn for fall delivery is trading \$4.00 and basis is -.10. You receive a check for \$3.90 per bushel, less applicable discounts.
